inspiration in your stores

A beautiful pottery section full of inspiration, the best in-store solutions, clear navigation and communication will attract shopping customers to the pottery shelves and will result in more sales.

With our local merchandising teams, enthusiasm and knowledge we can help you to improve the shopper experience of your customers.

How do we do this?

- Best customer centric shelf choices based on research and trends.
- Shopper analysis for ongoing assortment optimisation.
- In-store solutions for all retailer formats.
- Impactful POS materials, displays and stands.
- Optimise shelves and offer attractive POS.
- Inspiring activation calendar.

inspiration in your stores

How will we maximise results and optimise the customer journey at each stage in the right way? We make use of 3 steps;

Attract
6 metres from shelf: arouse interest via header board and banner to attract customers.

Engage
3 metres from shelf: inspire and communicate via display street and innovation pillars, to engage and persuade customers.

Connect
1 metre from shelf: in depth informing via wobblers, vertical banners, shelf strips and product labels, convincing the customer to buy.
