## exclusively available at Nieuwkoop Europe

Several models from the famous Pottery Pots Rough collection are exclusively available at Nieuwkoop Europe.

In addition, the Mineral and Wave collections consist entirely of special made items that are only obtainable at Nieuwkoop Europe. Both collections are made of Ficonstone, a mixture of fibreglass, cement, sand and crushed stone. This makes the planters very strong and relatively lightweight.

The Mineral and Wave planters are suitable for indoor and outdoor use.

## fiberstone

The fiberstone pots of Pottery Pots consist of 58% finely crushed stones and the remaining part is glass fiber. Stone is of course a hard product, what makes the pots really firm and high of quality. Therefore, fiberstone planters, flower pots and pots last a long time. Due to the glass fiber, the pots are lightweight and easy to move. That, in combination with the fact that fiberstone is easy to maintain, makes the pots truly user-friendly.

Additionally, fiberstone can survive all kinds of weather conditions. Frost, rain or sun, fiberstone can handle it. Fiberstone planters look good in every environment.

**UV Resistant** - Able to withstand harsh sunlight, ensuring vibrant colors and longevity, even in the brightest of spaces.

**Indoor** - Elevate your interior spaces with our planters, adding a touch of greenery to any room.

**Conscious choice** - Premium quality planters provide longevity, making them a durable option for conscious buyers.

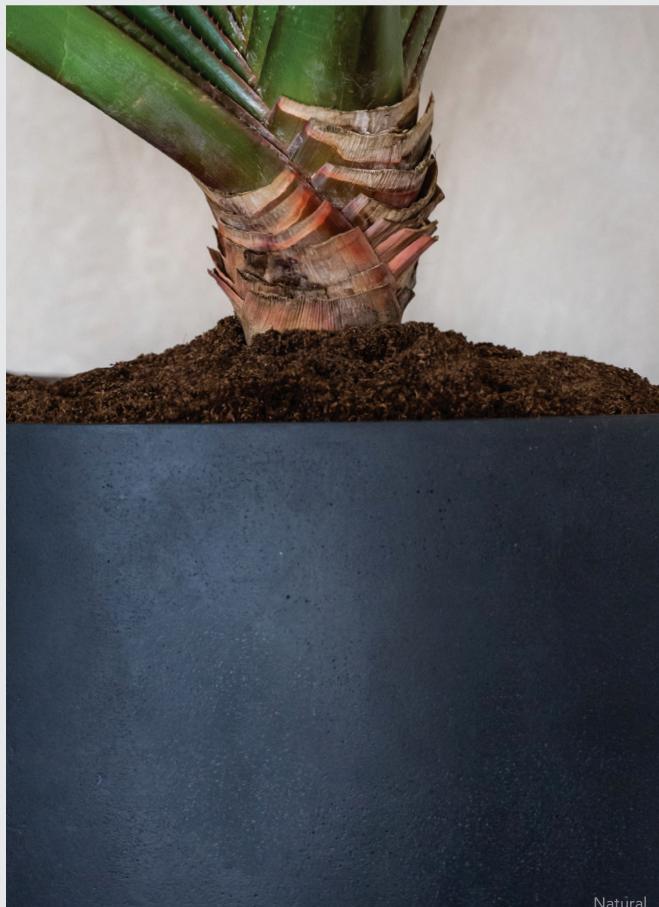

**Frost Resistant** - Can endure cold temperatures, making them ideal for all-year-round outdoor use.

**Outdoor** - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.

**Lightweight** - Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.

# natural

The natural collection features a diverse range of planters made from durable fiberstone, closely resembling real and more expensive natural stone. Rooted in Dutch design principles, the natural collection embodies a perfect balance of style and purpose. In addition, the versatile sizes ensure suitability for any space, seamlessly blending into various settings.

## plastic pot inserts

Our planters are handmade, which means they are not 100% waterproof. For indoor use cover the inside of the planter with a plastic pot insert to make it 100% waterproof. For more information see page 150.

## fiberclay

Fiberclay is a combination of clay and glass fiber and is therefore called clayfibre. A fiberclay pot often has a similar appearance to a pot made of earthenware or clay, but is lighter thanks to the addition of fiberglass. Clayfibre flower pots are also extremely resistant to moisture, frost and sun, and last for many years.

Fiberclay can be compared to ficonstone, with the difference that sand and crushed stone are also added.

# rough

The rough collection is the rebellious one of the Pottery Pots family. With its 'less is more' mentality, the rough collection focuses on the tough character of the pot. The collection, with a fiberclay base, consists of modern planter models with the same characteristic finish available in two different colors.

# mountain

The robust mountain collection is inspired by, as the name already mentions, the beautiful mountain landscapes that our earth is rich. With this collection, you can bring the rustic and natural beauty of the mountains to a space. The lines and structure give the collection an authentic look, while the ficonstone material provides a strong build. It feels like you are in the heart of the mountains.

# oyster

Dive into a world of treasures with the oyster collection. Crafted from durable ficonstone, these planters bring the allure of the ocean into your space with their luxurious finish resembling rich coral. The finish is applied using a special technique, with colors hand-sprayed in many different layers, ensuring that each item is truly one-of-a-kind.

## handmade

All of our pottery is made by hand. However, it's the oyster collection that truly captivates with its one-of-a-kind appearance. The colors of the pots are painted on by hand in different layers for optimal depth and richness. The image above captures the first layer being applied. What a difference compared to the end result!

## tip!

For indoor use: fill the planter with 1/3 clay pebbles and 2/3 with fertilized soil and place the plant in the planter. We also always recommend to use a plastic insert when placing a planter inside to protect the flooring underneath. For more information see page 153.

# bohemian

Rich in natural charm and craftsmanship, these planters capture the essence of bohemian aesthetics. They are made with an unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Within the bohemian collection, you can choose between two different looks, each with a different material on the outside that is ecologically responsible: bamboo and straw grass.

## bamboo

color code: BB

Crafted with a blend of fiberglass and cement on the inside of the planter, providing strength to maintain their shape. The outer layer is woven bamboo. Thoughtfully designed with a standard drainage hole, plug, and feet for optimal water drainage.

## straw grass

color code: GRS

Our straw grass planters feature a strong inside combining fiberglass and cement for strength, ensuring the pot retains its perfect shape over time.

## good to know

All bamboo planters are equipped with feet and a removable plug that ensures that the water can drain properly when the pot is placed outside. If you only use the pot indoors, we recommend a pot-insert (see page 151).

# mediterranean

The mediterranean collection is inspired by the sun-drenched shores and beautiful landscapes of the Mediterranean. Get lost in the hidden streets and feel the soft summer breeze coming into the houses. The collection contains models all named after a Greek god. The designs have a historical shape with a modern twist. The pots are made of ficonstone. This versatile collection is suitable for both indoor and outdoor use and will give any space a modern Mediterranean touch.

**from ancient art to modern gardens**

Roman pots, Roman pottery or an old Greek vase: the old influences are often seen in gardens these days. The architecture, with its majestic columns and harmonious proportions, is still a source of inspiration for contemporary designs. In the garden trends we see the Greek aesthetic is making its return.

## treasure

Inspired by the timeless beauty of ancient Egypt, this collection features classic planters characterized by elegant jug shapes and intricate rope details. These items add a touch of traditional charm to any indoor or outdoor space. Although they have the appearance of terracotta pots, they are actually made of a durable composite material called ficonstone, which consists of fiberglass, cement, and sand.

### tip!

For indoor use: fill the planter with 1/3 clay pebbles and 2/3 with fertilized soil and place the plant in the planter. We also always recommend to use a plastic insert when placing a planter inside to protect the flooring underneath. For more information see page 153.

## urban

We think this would be the outcome when "rough" meets "jumbo". The urban collection brightens up every space and is an eyecatcher. The medium to outsized planters come in three different well-known Pottery Pots shapes: the Orb, the Patt and the Charlie. The unique concrete finish is suitable for both outdoor and indoor.

Fiberstone Maintenance Oil 0,5 L (2-S)

## use & care

Our use and care collection offers a variety products to maintain or upgrade your Pottery Pots planters. Most of our products can be used both indoors and outdoors. When products are placed outdoor a special outdoor treatment is required. The use and care accessories keep your products in the best possible condition.

# your products deserve the best maintenance

**Keep your Pottery Pots planters in the best possible condition with our supporting use & care products. This range offers various products to maintain or upgrade your planters.**

## in general

1. Is there any damage caused to your planter? Easily touch it up with our **lacquer pen**.
2. Use the **maintenance oil** to preserve and enhance the surface of fiberstone black planters. The oil also protects against discolouration and simplifies maintenance.
3. Do not move the planter after filling. The weight of the clay pebbles, the soil and the plant could cause damage to the planter.
4. Make your planters easy movable with **pot wheels**.

## for outdoor use

1. Drill holes in the bottom of the planter and cover these with mesh, to make sure the soil cannot clog the holes.
2. Put the planter in the right place.
3. Use **pot feet** to make sure that the planter does not directly make contact with the subsurface.
4. Fill the planter with 1/3 of **clay pebbles** and 2/3 of **fertilized soil** and place the plant in the planter.

## icon index

	<b>UV Resistant</b> - Able to withstand harsh sunlight, ensuring vibrant colors and longevity, even in the brightest of spaces.		<b>Frost Resistant</b> - Can endure cold temperatures, making them ideal for all-year-round outdoor use.
	<b>Indoor</b> - Elevate your interior spaces with our planters, adding a touch of greenery to any room.		<b>Outdoor</b> - Durable planters, built to thrive in various weather conditions, making your gardens and patios come to life.
	<b>Conscious choice</b> - Premium quality planters provide longevity, making them a durable option for conscious buyers.		<b>Lighweight</b> - Due to the fiberstone blend, these pots are a much lighter alternative than planters that are made with clay or pure stone materials.
	<b>2 year guarantee</b> - We stand by the quality of our products; that's why we offer a 2-year guarantee.		<b>5 year guarantee</b> - For unparalleled durability and confidence, our planters come with a 5-year guarantee.
	<b>Plant waterproof</b> - While not suitable as vases, our planters are designed to be <b>plant</b> waterproof. Achieving 100% waterproofing with larger planters is challenging due to the handmade production process. For planters without the waterdrop icon, we recommend using plastic inserts when placed indoors.		

## guarantee conditions

We stand behind the quality of our planters. To keep our guarantee promise, make sure to follow these conditions:

### Leveling requirement:

For outdoor use, it is important that the planter is placed on a level surface. Uneven ground may compromise the stability of the planter.

### Pot feet:

Elevating the planter above the ground (when using outdoors) with pot feet is essential to help with drainage, safeguarding your plants and planters from potential water-related challenges.

### Drainage holes:

Outdoor planters must be equipped with drainage holes. Proper drainage is essential to prevent waterlogged soil, root rot, and other issues that can impact the plants and planters.

### Non-movement policy:

Once the planter is filled with soil and plants, it should not be moved. Shifting a filled planter may lead to unintended damage.
